

Creative Intelligent Me, Summer Math Facilitators

About us: Creative Intelligent Me believes that everyone is creative and intelligent in their own way. We seek to allow students, teachers and administrators to use their creativity to enhance their knowledge in math and science. We provide workshops and products that open minds to new ideas in math and science. Our number one requirement for all is to have fun learning!

Job Description: Creative Intelligent is seeking to employ 10 dynamic math educators to facilitate pre-algebra concepts and skills to 7th grade students in creative ways. Educators will be trained by award winning math educator, Janel Williams and will have the opportunity to collaborate with other educators to improve their craft.

Time commitment: Facilitators will be required to facilitate classes on Wednesdays and Thursdays for 2 hours each day from July 10 to August 3. A preparation meeting will be required for all facilitators prior to July 10.

Location: Nassau Community College or neighboring school

Compensation: Facilitators will be paid a minimum of \$50/hour

Requirements: Certified Math Teacher or student currently enrolled in a math teacher program

Contact: Please contact Creative Intelligent Me at creativeintelligentme@gmail.com or call 631-882-6319 to express your interest

Deadline: Please respond by May 30.
