

# NUTRITION THERAPY CONCENTRATION

The Nutrition Therapy concentration is for anyone interested in pursuing the clinical side of the nutrition industry or wanting to explore multiple career paths related to nutrition and dietetics. Throughout the 15 month program, you'll complete clinical, community, and foodservice site rotations alongside dietetic and elective graduate courses to earn your MS in Nutrition and Dietetics with a Nutrition Therapy emphasis and be eligible to sit for the Registered Dietitian exam.

## SITES

Nutrition Therapy-specific sites may include multiple hospitals including large, small, urban, rural, and specialty hospitals, outpatient and private practice sites, clinical foodservice sites, and more.

## CLASSES

Concentration-specific classes include:

- Nutrition Education and Counseling
- Clinical Systems Management
- Maternal and Child Nutrition and Health
- Pediatric Nutrition
- Sustainable Food Systems
- Community Nutrition

## CAREERS

Our Nutrition Therapy graduates have careers spanning the field of nutrition and dietetics - from clinical dietitians and clinical nutrition managers to private practice owners, dietitians at food banks and other nonprofits, public policy advocates, WIC and health department dietitians, and quality assurance managers for food companies.
