

QC STUDENTS:

# Your opinion counts!

Queens College wants to know more about how satisfied you are with your college experience.

A sample of QC students will receive an emailed invitation to fill out a Noel-Levitz Student Satisfaction Inventory survey. Please be on the lookout for an email with the survey request from President Félix V. Matos Rodríguez.

The survey asks your impressions of many aspects of college life, such as academics, admissions, advising, campus climate, financial aid, quality of services, registration, and safety. Queens College will use your answers to promote a culture of continuous improvement.

**Help make Queens the best college it can be.  
Remember: Your opinion counts!**

If you have questions about this project or how we plan to use the results, please contact Dr. Meg McAuliffe in the Office of Institutional Research, 718-997-5788.
