

# Access Code 2.0

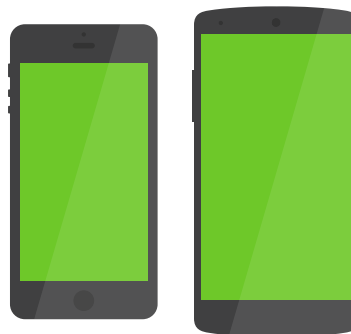

EMPOWERING NEW LEADERS

**Learn to code iOS mobile apps.  
 Get a job as a computer programmer.  
 Launch your career in tech.**

May 2015 - January 2016 / Intensive Part-Time / Full Scholarships

Access Code equips talented adults with the computer programming skills and entrepreneurial training to launch their careers in tech. This intensive 9-month part-time program in mobile app development prepares participants with no prior coding experience for entry-level developer jobs at the hundreds of innovative startups and tech companies (such as Google and Facebook) that are looking to hire the next generation of talent.

With our mission to expand access to tech opportunities, all students will receive full scholarships to the program.

## Opportunities in Tech

\$96,400	73,100	29,100	\$26,400 ➔ \$73,000
Average Tech Job Salary	Unfilled Tech Jobs in NYC	Projected New Tech Jobs by 2020	Pre-Access Code Post-Access Code

The first Access Code 1.0 program helped graduates get jobs in tech.
