Dr. Knatokie Ford

Women's History Month

STEM Program Diversity and Inclusion

Wednesday, March 21, 2018 • 12:15–1:30 pm

Student Union • Fourth-floor Ballroom — West

Light refreshments served

The United States faces soaring demand for employees who have studied science, technology, engineering, and mathematics—the STEM fields. But women, minorities, and people with disabilities have been historically underrepresented in STEM careers. Biomedical scientist and former White House advisor **Dr. Knatokie Ford** will share insights from her work in the Obama administration on parental engagement, STEM education, and labor force issues, as well as the role of entertainment media as the next frontier of STEM inclusion.
