Course Descriptions

ECPCE 700: Foundations of School Counseling. 3 hr.; 3 cr. This course is an introduction to the field of school counseling that will provide an overview of the knowledge necessary for preparation as professional school counselors. Some of the topics addressed in this course include: professional and ethical responsibilities, consultation, multicultural and diversity issues, college and career readiness, and the perspectives and practices necessary for school counseling in the 21st century. Candidates will also be introduced to the components required for the development and management of a school counseling program, and the use of data to inform decision-making. In addition, candidates will learn the various roles of a school counselor as leaders, advocates, consultants, coordinators, and collaborators. This course will utilize both theory and the exposure to practitioners in the field to better understand the function as a professional school counselor. As this course facilitates the development of the skills necessary

Academic Senate Minutes – May 14, 2020

(5b. GCC continued)

for counselor training at the graduate level, topics such as research in counseling and scholarly writing will also be addressed.

ECPCE 701: Lab in Self-Awareness. 3 hr.; 3 cr. Taken concurrently with ECPCE 700, this experiential course develops listening, feedback, and communication skills through guided exercises and readings. The small group experience is used to explore and enhance self-awareness of intrapersonal and interpersonal dynamics through a variety of psychological, social, and professional perspectives. It is the basis for the personal and professional development expected of the counselor-in-training. Graded on a Pass/Fail basis only.

ECPCE 702: Theories of Human Development. 3 hr.; 3 cr. This course is a survey of the major theories of personality, cognitive, and social-emotional development through the lifespan. It includes study of family, social and ecological factors as they interact with individual factors to facilitate development. The course emphasizes the application of developmental principles to counseling interventions.

ECPCE 703: Lab in Counseling Techniques. 3 hr.; 3 cr. Taken concurrently with ECPCE 704, this course focuses on developing basic counseling skills with individuals. Emphasis is on creating the core conditions for facilitating the counseling relationship and process, practicing appropriate application of counseling microskills, and coordinating intervention techniques with counselor intentions for therapeutic change. Role plays, video feedback and group discussions as well as other activities will be used. Graded on a Pass/Fail basis only.

ECPCE 704: Counseling Theories 3 hr.; 3 cr. This course surveys the major theories of counseling and psychotherapy. Issues of theoretical assumptions, assessment, treatment, and outcome will be addressed as well as their application to counseling settings and specific clinical populations. Comparison of the various empirically based models of counseling will aim to derive common principles of therapeutic change.

ECPCE 706: Theories of Group Counseling. 3 hr.; 3 cr. This course will provide an overview of the major theories of group counseling with a focus on task groups, psychoeducational groups, and therapy groups. Topics will include techniques of group counseling, group dynamics, developmental stage theories, group process components, types of groups, ethical and legal considerations, leadership styles, as well as research and literature in group counseling and social systems. Experiential exercises will be used to reinforce concepts.

ECPCE 707: Lab in Group Counseling Techniques. 3 hr.; 3 cr. Prereq.: ECPCE 706. This is an experiential course where students practice techniques of group interventions that are taught in the theory part of the course sequence. Students gain experience in developing their own leadership styles and responding to group dynamics. Topics will include techniques of co-facilitation, giving and receiving corrective feedback, and development of group session plans

ECPCE 729: Practicum in School Counseling. 100 hr. per semester (placement in a school setting, grades K–12); 4 cr. Prereq.: Permission of the advisor, completion of 12 cr. in the program including ECPCE 703. Practicum is a field-based course during which candidates will be placed for 100 hours in a K-12 school setting. During practicum candidates will engage in

Academic Senate Minutes – May 14, 2020

(5b. GCC continued)

activities related to the development, implementation, and evaluation of the elements of the school counseling program (60% of hours) and provide direct student services (40% of hours) with a focus on integrating theoretical concepts with advanced techniques to develop a cohesive approach to counseling. A comprehensive case study is required as part of this course. While on practicum candidates are under the supervision of a school counselor and a Queens College faculty and must attend a course on campus.

ECPCE 801: Career Development and Assessment in School Settings. 3 hr.; 3 cr. This course will introduce candidates to the theory and practice of career counseling, the administration and interpretation of selected inventories, the career counseling process, available career resources, and the ethical and practice standards related to career counseling in school settings. Particular focus will be placed on the career development process of students in grades K-12 and the school counselor's role in providing developmentally appropriate career development services. As part of this course, issues related to working with diverse populations, (gender, race, culture, ability, and sexual orientation) will be explored.

ECPCE 802: Clinical and Contextual Issues in School Counseling. 3 hr., 3 cr. This course involves the study of clinical and contextual issues in school counseling including depression, substance abuse, suicide, violence in schools and communities, psychological trauma, crisis intervention, and ethics as they relate to educational settings. Particular emphasis is given to issues related to linguistically diverse learners, immigrants, and special needs students. The course will also explore effective counseling strategies and resources in the community. Candidates seeking the Bilingual Extension in SC will complete required assignments with a focus on linguistically diverse learners/bilingual education.

ECPCE 803: Multicultural Issues in Counseling. 3 hr.; 3 cr. This course will introduce students to issues of diversity within the counseling process and society as a whole. As part of this course, students will examine issues related to race, culture, ethnicity, gender, sexual orientation, religion, socioeconomic class, and power. Students will be introduced to ethical and practice standards in the field as they relate to working with the culturally diverse client. A significant aspect of this course is to assist the emerging counselor in developing a deeper self-awareness as an individual and a professional, particularly as it relates to issues of diversity, and the impact of these issues on professional roles.

ECPCE 805: Assessment Methods in School Counseling. 3 hr.; 3 cr. This course covers the principles of assessment methods used in school counseling. There will be a review of basic statistical concepts and educational measurement. The course will survey cognitive, personality, career and educational tests. Assessment and evaluation methods specific to education and to school counseling will be covered. Ecological assessment and program evaluation will be addressed. Critical issues will include factors of culture, gender, linguistic diversity, ethnicity, age, disability, and examiner bias. Candidates seeking the Bilingual Extension in SC will complete required assignments with a focus on linguistically diverse learners/bilingual education.

ECPCE 806: Administration and Organization of School Counseling Programs. 3 hr.; 3 cr. This course covers the role and function of the counselor in school settings; the study of school

Academic Senate Minutes – May 14, 2020

(5b. GCC continued)

structure, policies, and procedures; the development, implementation, and evaluation of counseling and guidance services; issues in consultation, administration, and systemic interventions. The first part of the course describes the regulations and laws that govern student support services. The second portion of the course deals with the New York State “Comprehensive Counseling Program” and the best practices for providing and evaluating complete multi-tiered programs with diverse student populations to including Special Education and linguistically diverse students. Dispersed throughout the course, candidates will see how the use of technology and its application assists the counselor with routine clerical work, record keeping and data driven decisions. Candidates seeking the Bilingual Extension in SC will complete required assignments with a focus on linguistically diverse learners.

ECPCE 807: Research Methods in Counseling. 3 hr.; 3 cr. This course surveys methods of research designs used in psychological, educational, and counseling research and program evaluation. The goals of the course are for candidates to develop a foundation in empirical research to become critical consumers of studies in the counseling literature. Candidates work with the instructor to develop a research project in the candidate’s area of specialization or are involved in direct research activities. Candidates seeking the Bilingual Extension in SC will complete required assignments with a focus on linguistically diverse learners. Ethical considerations, application of research skills to counseling activities, and use of data for program development will also be discussed.

ECPCE 808: Child and Adolescent Counseling. 3 hr.; 3 cr. Prereq.: ECPCE 702, Theories of Human Development or equivalent. This course will focus on the methods, techniques, and issues of counseling children and adolescents. General considerations of developmental stages, family dynamics, school environment and the therapeutic relationship will be discussed. The etiology and assessment of common childhood disorders and empirically supported treatment will be reviewed. Cognitive-behavioral, pharmacological, educational, and ecological interventions will be addressed as well as issues of prevention and community resources.

ECPCE 809: Learning and Motivation in School Counseling. 3 hr.; 3 cr. This course will cover major theories of learning and motivation as they apply to school counseling settings. Principles of attribution, self-efficacy, goal setting, conditioning, and information processing will be applied to student achievement and academic development as well as to the counseling experience as a type of learning process. Emphasis will be placed on the role of the counselor as a consultant to teachers, in support services for students with learning and motivation difficulties, and in psychoeducational and ecological interventions. The course is designed for graduate students to experience their own learning and motivational processes.

ECPCE 810: College and Career Readiness in K-12 Schools. 3 hr.; 3 cr. This course is an introduction and overview to college and career readiness from a holistic and developmental perspective for students in the K-12 setting. Working within a developmental and social justice framework participants will: learn about developmentally appropriate academic and personal needs of students as they transition from elementary through high school; learn about strategies and interventions to facilitate students’ college career readiness at the elementary, middle and secondary school level; learn about and utilize informational resources needed to assist students

Prerequisites or corequisites: None

Course Description: This course will introduce candidates to the theory and practice of career counseling, the administration and interpretation of selected inventories, the career counseling process, available career resources, and the ethical and practice standards related to career counseling in school settings. Particular focus will be placed on the career development process of students in grades K-12 and the school counselor's role in providing developmentally appropriate career development services. As part of this course, issues related to working with diverse populations, (gender, race, culture, ability, and sexual orientation) will be explored.

ECPCE 700. Foundations of School Counseling. 3 hr.; 3 cr. This course is an introduction to the field of school counseling that will provide an overview of the knowledge necessary for preparation as professional school counselors. Some of the topics addressed in this course include: professional and ethical responsibilities, consultation, multicultural and diversity issues,

college and career readiness, and the perspectives and practices necessary for school counseling in the 21st century. Candidates will also be introduced to the components required for the development and management of a school counseling program, and the use of data to inform decision-making. In addition, candidates will learn the various roles of a school counselor as leaders, advocates, consultants, coordinators, and collaborators. This course will utilize both theory and the exposure to practitioners in the field to better understand the function as a professional school counselor. As this course facilitates the development of the skills necessary for counselor training at the graduate level, topics such as research in counseling and scholarly writing will also be addressed.

ECPCE 729. Practicum in School Counseling 100 hr. per semester (placement in a school setting, grades K–12); 4 cr. Prereq.: Permission of the advisor, completion of 12 cr. in the program including ECPCE 703. Practicum is a field-based course during which candidates will be placed for 100 hours in a K-12 school setting. During practicum candidates will engage in activities related to the development, implementation, and evaluation of the elements of the school counseling program (60% of hours) and provide direct student services (40% of hours) with a focus on integrating theoretical concepts with advanced techniques to develop a cohesive approach to counseling. A comprehensive case study is required as part of this course. While on practicum candidates are under the supervision of a school counselor and a Queens College faculty and must attend a course on campus.

structure, policies, and procedures; the development, implementation, and evaluation of counseling and guidance services; issues in consultation, administration, and systemic interventions. The first part of the course describes the regulations and laws that govern student support services. The second portion of the course deals with the New York State Comprehensive Counseling Program” and the best practices for providing and evaluating complete multi-tiered programs with diverse student populations to include: Special Education and linguistically diverse students. Dispersed throughout the course, candidates will see how the use of technology and its application assists the counselor with routine clerical work, record keeping and data driven decisions. Candidates seeking the Bilingual Extension in SC will complete required assignments with a focus on linguistically diverse learners/bilingual education.

ECPCE 807 Research Methods in Counseling. 3 hr.; 3 cr. This course surveys methods of research designs used in psychological, educational, and counseling research and program evaluation. The goals of the course are for the candidates to develop a foundation in empirical research to become critical consumers of studies in the counseling literature. Candidates work with the instructor to develop a research project in the candidate’s area of specialization or are involved in direct research activities. Candidates seeking the Bilingual Extension in SC will complete required assignments with a focus on linguistically diverse learners/bilingual education. Ethical considerations, application of research skills to counseling activities, and use of data for program development will also be discussed.

7a. Discussion of Resolution for Online tuition and Student Activity Fees

Glenn Burger, Interim Dean of Graduate Studies discussed and received feedback on the following resolution:

Board of Trustees of The City University of New York

RESOLUTION TO

**Authorize In-State Tuition Rate for Online Degree Programs and
Authorize an Online Infrastructure Fee**

Queens College

March 9, 2020

Academic Senate Minutes – May 14, 2020

WHEREAS, Queens College is now delivering certain programs fully online to students, and

WHEREAS, these programs include the Masters of Science of Education (MS Ed) in Family and Consumer Sciences and the Bilingual Extension Advanced Certificate in Elementary and Early Childhood Education, and

WHEREAS, the in-state tuition rate has proven crucial to the competitiveness of these online programs in the national and international online education market, and

WHEREAS, a precedent exists for a modified schedule of tuition and fee charges for fully online programs, since they have already been approved by the Board of Trustees of the City University of New York for fully online programs at John Jay College and the CUNY School of Professional Studies.

NOW, THEREFORE, BE IT

RESOLVED, That the Board of Trustees of the City University of New York adopt a revised schedule of tuition and fee charges **effective Fall 2020 for** students enrolling in online degree and certificate programs offered by Queens College, whether current or future, to charge all students the graduate in-state tuition rates regardless of residency; and

BE IT FURTHER

RESOLVED, That for students enrolled in these programs at Queens College, the Board of Trustees of the City University of New York authorize a \$75 Online Infrastructure Fee and a reduced student activity fee of \$15.90 (University Government, College Government, Student Fee, Disabled Students, and NYPIRG fee).

EXPLANATION: The Board of Trustees of the City University of New York have adopted such a schedule of tuition and fee charges for John Jay College and the CUNY School of Professional Studies. The in-state tuition rate has proven crucial to the competitiveness of these online programs in the national and international online education market. As of Fall 2019 Queens College has a fully online MS Ed in Family and Consumer Science, and beginning Spring 2020, this program hopes to begin marketing nationally. The program currently has 25 students enrolled and expects to grow to 80 to 100 as a result of going fully online. The Bilingual Extension Advanced Certificate program, also fully online, is also planning to expand its outreach nationally beginning Fall 2020. Queens College also anticipate developing other new fully online graduate programs over the next several years that will be aimed at national and international markets, as well as within New York State.

The new Online Infrastructure Fee will apply only to students registered in fully online degree programs. This new fee will provide online students with key student services, such as access to student service coordinators dedicated to online students, online

Academic Senate Minutes – May 14, 2020

orientation, online tutoring, and an online student portal, that are critical to ensure a high retention rate in online programs at Queens College.

The Consolidated Service Fee and Technology Fee will continue to be charged to students in fully online programs.

MOTION: Duly made seconded and passed:

“To Adjourn”

Meeting adjourned at 4:35 pm.

PREAMBLE: Sheryl McCarthy is Distinguished Lecturer of Journalism at Queens College, and hosts the weekly talk show "One to One" on CUNY-TV, where she interviews women who are movers and shakers in many walks of life. She also serves as an advisor to the staff of The Knight News. Ms. McCarthy's journalism career has included being a reporter for The Boston Globe and The Baltimore Evening Sun, a reporter and education editor for The New York Daily News, a correspondent for ABC News, and a reporter and columnist for Newsday and New York Newsday, where she received The Meyer Berger Award from Columbia University for her columns about the people and issues of New York City. She moderated the weekly current affairs shows "Thirteen Live" and "New York Hotline," which aired on WNET and WNYC-TV. She has received awards from the national Education Writers Association and The New York Association of Black Journalists, and the Planned Parenthood Federation of America gave her its "Maggie" award for her coverage of such issues as the attacks on women's reproductive rights, the need for access to effective contraception and the need for accurate sex education for young people. She has contributed to MS Magazine and The Nation and served on the board of contributors of USA Today, and was a Nieman Fellow at Harvard. Her book of Newsday columns, "Why Are the Heroes Always White?" was published by Andrews and McMeel. Born in Birmingham, Alabama, she graduated "cum laude" from Mount Holyoke College, received master's and law degrees from Columbia, and is a member of the New York bar. She is a former trustee of Mount Holyoke and the recipient of its Alumnae Medal of Honor.

WHEREAS: Professor Sheryl McCarthy has retired from Queens College this year, in the Spring of 2020, and

WHEREAS: Her commitment to teaching the students of Queens College about the various disciplines of Journalism was well regarded by her peers and students, and

WHEREAS: She has served as an advisor to The Knight News, Queens College's student run newspaper for 13 years, and

WHEREAS: Her tenure as advisor for *The Knight News*, was marked by high standards, kindness, powerful critiques, and

WHEREAS: She has spent her time at Queens College inspiring students to generate change through Journalism, and

WHEREAS: She has committed all her efforts to serving the Queens College community well, especially in her last year as Acting Director for the Journalism department, and

WHEREAS: She leaves behind a community of student journalists who have been mentored by her, and

WHEREAS: The Journalism department is no longer offering classes for the foreseeable future, and

WHEREAS: *The Knight News*, in collaboration with the Queens College English department, aims to carry on Professor McCarthy's legacy and efforts to educate Queens College students about Journalism,

THEREFORE,

BE IT RESOLVED: The Academic Senate of Queens College expresses its gratitude, acknowledgement of Sheryl McCarthy's service, warm wishes for good health and success in all her future endeavors.

1. Music

Change to a Major: Bachelor of Music in Performance (MUSIC-BM; major code 077; state code 34809; HEGIS 1004.00)

A. Summary and motivation for changes

The revisions proposed here fall into three basic groups: (1) Requirements we must add as part of our bid for NASM accreditation; (2) Reductions in academic requirements motivated by the need to comply with CUNY's 120-credit limit; (3) Increases in ensemble requirements to enhance the rigor of our performance program.

(1) We are in the final stages of securing accreditation from the National Association of Schools of Music (NASM). Two of NASM's requirements are at the core of this revision: first, that all Bachelor of Music (professional) degrees include a required course in non-Western music; and second, that all Bachelor of Music degrees in performance include a required course in conducting. (At present, conducting is one of three courses, along with composition and instrumentation/orchestration, that performers may choose to fulfill an advanced elective requirement.)

(2) The present changes slightly reduce overall credit totals to ensure that all Bachelor of Music in Performance degrees conform to CUNY's 120-credit limit. During the LASAR era, the Bachelor of Music degree had significantly reduced general-education requirements in acknowledgment of the specialized demands of a conservatory-style degree. That accommodation was eliminated upon Queens College's adoption of the PLAS general-education structure in 2009. Certain majors within the degree, especially vocal performance, were pushed further out of compliance when CUNY imposed the Pathways framework four years later. The reduction of some music requirements is partly in response to the increased number, and reduced flexibility, of Queens College's general-education requirements. Some of the cuts have been mitigated by the recent approval of three music courses to fulfill Pathways requirements: Music 246 (World Cultures and Global Issues), Music 247 (Individual and Society), and Music 377 (Synthesis). In addition, Music 121 (Writing About Music), designed in 2013 to fulfill the College Writing 2 requirement for Pathways, will now be required for all music majors.

(3) Finally, we are proposing a slight increase in certain performance requirements: the number of required semesters of chamber music or small ensemble, currently 4 for all performance majors, will increase to 6 for most instrumentalists. Similarly, to align with performance programs elsewhere, the requirement for repertory classes (Music 282), currently 2 semesters, will increase to 4 semesters for singers and 6 for most instrumentalists. (In conservatories, it is normally expected that students take a repertory class every semester; in some institutions, it is tied directly to individual lessons, so that a student cannot take one without the other.) These changes are detailed in Appendix B.

Currently, the undergraduate major in music performance is simply called the Bachelor of Music; it is the only degree at Queens College so named. This revision adds the word "performance." Our existing Bachelor of Arts in Music Education degree, because it is a professional degree and not a liberal-arts degree, is being revised and renamed Bachelor of Music in Music Education. The changes in both content and title are being made in order to conform with NASM accreditation requirements and the standard naming conventions used by peer institutions across the nation. The performance degree is to be formally renamed Bachelor of Music in Performance to distinguish it from the new Bachelor of Music in Music Education.

NASM has indicated its approval of our proposed revisions to the BM in Performance. They are reserving final accreditation until all curricular changes that they have requested, both undergraduate and graduate, have received all necessary approvals and are ready to go into effect.

B. Budgetary impact of changes

The revisions to the BM in Performance degree are expected to be budget-neutral. The increased repertory class requirement will have no budget impact, as each section of Music 282 is a regular class, and additional sections will not be required, especially since many students already take far more than the two semesters officially mandated. The increased chamber music requirement will incur modest additional expense, as there will be more chamber groups each semester requiring faculty coaches. This increase will be offset by the academic cuts. Music 373, for instance, of which we usually run two sections every semester, will likely be reduced to no more than one section per year, as it is being removed as a requirement from most of our undergraduate degrees. The NASM-motivated changes are also budget-neutral, as all of these new requirements involve courses that we already offer regularly.

C. Specific changes in proposed Bachelor of Music in Performance degree

The number of music credits required in the proposed BM in Performance is now 81 for most students. This appears to be a slight increase from the 73-79 credits in the current BM degrees, but the approval of certain music courses for Pathways, as noted above, has reduced the total number of credits such that all BM Performance degrees will comply with the 120-credit maximum.

See [Appendix A](#) (page 6) for a list of major requirements in the existing Bachelor of Music and [Appendix B](#) (page 8) for those of the proposed Bachelor of Music in Performance. [Appendix C](#) (page 10) provides revised text for the “Gray Box” summary of degree requirements.

What follows on pages 3-5 are proposals concerning courses that are being (1) added to, (2) changed, or (3) subtracted from the existing Bachelor of Music. Course descriptions and sample syllabi for each new course were already submitted to the Undergraduate Curriculum Committee and approved; these were part of proposals submitted in February 2020 for a new degree (Bachelor of Music in Music Education) and a revised degree (Bachelor of Arts in Music).

New course:

MUSIC 301W. Topics in Musicology. *A proposal to create MUSIC 301W was submitted to the UCC on 2/25/2020 as part of the proposed revision to the Bachelor of Arts in Music.*

Justification:

We are reducing our survey of Western music history from four semesters of writing courses (MUSIC 246W, 247W, 346W, 347W) to two semesters of lecture courses (MUSIC 246, 247). In addition to MUSIC 246–247, BM Performance students will be required to take a writing-intensive topical course in Western musicology (MUSIC 301W).

New course:

MUSIC 302W. Topics in Non-Western Music. *A proposal to create MUSIC 302W was submitted to the UCC on 2/25/2020 as part of the proposed revision to the Bachelor of Arts in Music.*

Justification:

NASM requires that students in Bachelor of Music (BM) programs take one course in non-Western music. We are proposing MUSIC 302W as a way for BMus students to satisfy their requirement. MUSIC 122 (Writing Musical Culture), an existing course, will also be available to BM students for the fulfillment of this requirement.

Unlike MUSIC 122, MUSIC 302W assumes that students have fluent reading knowledge of Western musical notation. It is expected, but not required, that students in MUSIC 302W will have completed MUSIC 246 and 247.

Change in Course Title and Description:

MUSIC 246. Music History I. *A proposal to change MUSIC 246 was submitted to the UCC on 2/5/2020 as part of the proposed degree Bachelor of Music in Music Education.*

Change in Course Title and Description:

MUSIC 247. Music History II. *A proposal to change MUSIC 247 was submitted to the UCC on 2/5/2020 as part of the proposed degree Bachelor of Music in Music Education.*

Existing Course, but Added Requirement for BM in Performance:

MUSIC 270. Conducting I. 3 hr.; 2 cr. Prereq.: MUSIC 273 or permission of the School of Music. Baton technique, score reading, and rehearsal techniques applied to choral and instrumental music. Students must achieve a minimum grade of C– for this course to count toward the music major. Fall, Spring

Justification:

NASM requires all Bachelor of Music students to take a course in conducting. Formerly, BM Performance students could choose among Music 270 (Conducting), Music 276 (Instrumentation), or Music 378 (Composition); with the new NASM requirement in place, Music 276 and 378 will be offered only occasionally as electives.

Change in Credits and Description:

From:

MUSIC 283. The Art of Keyboard Accompaniment. 2 hr.; ~~2 cr.~~ Prereq.: Permission of the instructor. Introduction to techniques and art of accompaniment through intensive study of selected examples of vocal and instrumental literature. Emphasis on the skills of sight-reading. ~~Should be taken before the beginning of the senior year.~~††

To read:

MUSIC 283. The Art of Keyboard Collaboration. 2 hr.; 1 cr. Prereq.: Permission of the instructor. Introduction to techniques and art of accompaniment through intensive study of selected examples of vocal and instrumental literature. Emphasis on the skills of sight-reading.

Justification:

MUSIC 283 is being reduced from 2 credits to 1 credit to align with all other chamber music, small-ensemble, and large-ensemble courses. “Collaboration” better describes the broad objectives of the course. There are no restrictions on when the course can be taken in a student’s undergraduate career.

From:

MUSIC 284. Introduction to Continuo Playing. 2 hr.; ~~2 cr.~~ Prereq.: MUSIC 273 and permission of the instructor. Introduction to the techniques of realizing a figured bass at the harpsichord. Intended for advanced players of other keyboard instruments. May be taken by Bachelor of Music piano majors to satisfy one semester of MUSIC 286.††

To read:

Justification:

MUSIC 284 is being reduced from 2 credits to 1 credit to align with all other chamber music, small-ensemble, and large-ensemble courses. It is being dropped from the BMus in performance as a requirement; the course has not been offered for many years, but we wish to keep it in the catalog.

From:

MUSIC 286. Practical Accompanying. 2 hr.; ~~2 cr.~~ Prereq.: Permission of the accompaniment coordinator. Practical experience in serving as accompanist for an ensemble, a performance course (e.g., string repertory), or student recitals. Students will be assigned responsibilities by the accompaniment coordinator. May be repeated for credit. Required of all Bachelor of Music students majoring in piano.

Justification:

MUSIC 286 is being reduced from 2 credits to 1 credit to align with all other chamber music, small-ensemble, and large-ensemble courses.

Courses being removed from the major but retained in the Undergraduate Bulletin:

MUSIC 284. Introduction to Continuo Playing.

MUSIC 346W. Music History III. Music from 1800 to 1890.

MUSIC 347W. Music History IV. Music from 1890 to the Present.

MUSIC 373. Model Composition and Score Reading.

MUSIC 378. Composition I.

Justifications:

MUSIC 284 has not been offered for many years; additional semesters of MUSIC 286 have effectively replaced it as a requirement.

MUSIC 346W–347W, which are currently required of all music majors, will continue to be taught to continuing students for 1–2 years after the inauguration of the revised BM in Performance. These students will complete their degree using the requirements that were in place at the time they were admitted.

MUSIC 373 will no longer be required in the Bachelor of Music in Performance. It will be required in some tracks of the revised Bachelor of Arts in Music and a recommended elective in Bachelor of Music programs. We anticipate that it will be offered about once per year.

MUSIC 378 will no longer be required in any degree program. However, we wish to keep it in the Bulletin as an elective for students in our Bachelor of Music programs. We anticipate that we will offer this course infrequently, perhaps once every four semesters.

Each May, Bachelor of Music students must perform several contrasting works before a faculty jury to demonstrate satisfactory progress in performance. These juries, known as Progress Evaluations, are evaluated on a pass-fail basis. Three Progress Evaluations must be passed before a student may present the senior recital, which is also evaluated by a faculty jury on a pass-fail basis. The program for the senior recital must be approved in advance by the student's principal performance teacher. There may not be more than one year's difference (2 semesters) between the theory level and the semester of lessons. Lessons may be at level 4 while taking Theory 2 (MUSIC 174), but no greater difference will be permitted. Should the theory level fall further behind, a student will be suspended from lessons until the theory requirement is fulfilled. Additionally, students must complete the requirements for MUSIC 100 for each semester they are registered up to a maximum of six semesters.

Total minimum number of music credits: 73 (winds, brass, guitar, and percussion)
79 (piano)
77 (voice)

APPENDIX C. “Gray Box” text for BMus Performance

The BMus in Performance has undergone substantial revision, so this rewritten text for the Undergraduate Bulletin “Gray Box” is proposed for improved clarity and accuracy.

III. THE BACHELOR OF MUSIC IN PERFORMANCE (MAJOR CODE XXXXX)

The Bachelor of Music in Performance is designed for advanced instrumental or vocal performers and is comparable to conservatory training. Admission is by competitive audition in the major instrument. Students receive up to eight semesters of individual instruction in the major instrument from an instructor assigned by the School of Music.

All students taking individual lessons (MUSIC 151, 152, 251, 252, 351, 352, 451, 452) must perform on their major instrument each May before a faculty jury. These juries, also known as Progress Evaluations, are evaluated on a pass-fail basis. Three juries must be passed before a student may present the senior recital, which is also evaluated by a faculty jury on a pass-fail basis. The program for the senior recital must be approved in advance by the student’s principal performance teacher.

There may not be more than one year’s difference (two semesters) between the theory level and the semester of lessons. For example, lessons may be at level 4 (MUSIC 252) while the student takes Theory 2 (MUSIC 174), but no greater difference will be permitted. Students will be suspended from lessons until the theory requirement is fulfilled.

Supportive courses in music required of all BMus Performance students:

MUSIC 74, 75, 171, 172, 173, 174, 271, 272, 273, 274; 374, 377; 270; 246, 247; 301W.

All BMus students are required to complete one course in non-Western music (MUSIC 302W, 122, or other courses by permission).

Additional BMus Performance requirements

8 semesters of large ensemble (MUSIC 156, 158, 253, 258, or 259)

6 semesters of MUSIC 100 (Recital Attendance)

4 Listening Exams

Senior Concentration Exam

Required courses for orchestral instruments, guitar, and percussion only:

6 semesters of Chamber Music or other small ensembles (MUSIC 2551, 2571, 244, 68, et al.)

6 semesters of MUSIC 282 (Survey of Repertory) in the appropriate instrumental area

Required courses for piano majors only:

6 semesters of MUSIC 282 (Survey of Piano Repertory)

4 semesters of Chamber Music or other small ensembles (MUSIC 2551, 2571, et al.)

1 semester of MUSIC 283 (The Art of Keyboard Collaboration)

2 semesters of MUSIC 286 (Practical Accompanying)

1 additional semester of MUSIC 2551 or 286

Note: Pianists are exempted from MUSIC 74 and MUSIC 75.

Required courses for vocal majors only:

4 semesters of Opera Studio or Chamber Music (MUSIC 2561, 2551, et al.)

4 semesters of MUSIC 282 (Survey of Vocal Repertory)

MUSIC 129, 130, 229, 230 (Italian, German, French, and English Diction, respectively)

Academic Requirements for BMus Performance Students

All college-wide BA requirements must be met, including all Pathways requirements. Music majors are advised to fulfill the Pathways language requirement with a course in German, French, or Italian. Students must complete a course from the list of those satisfying the Appreciating and Participating in the Arts requirement in the departments of Art or Drama, Theatre, and Dance.

All BMus Performance students will complete their CW2 requirement with a designated section of MUSIC 121; MUSIC 246 and 247 fulfill the WCGI and IS Pathways requirements, respectively; the Pathways SYN requirement is satisfied by MUSIC 377.

(4 hours/week; 3 credits)

To read:

PHOTO 200. Imaging Resistance: Photographic Media and Socially Engaged Art

(3 hours/week; 3 credits)

Justification:

This is a history/theory lecture/seminar course, not a studio practice course, and therefore does not require a four hour studio timeslot.

3. Family, Nutrition, and Exercise Sciences

Change to a major: FAMILY & CONSUMER SCIENCES (MAJOR CODES FNES-BA), specialization in Food Management Studies

FROM: FNES 101, 104, 105, ~~406, 147, 151~~, 163, 200, 203, 204, 275, 371.2, 378, and ~~380~~; CHEM 101.1 and 101.3 (or 113.1 and 113.4); ACCT 101; BIOL 11; ECON 100

TO: FNES 101, 104, 105, 163, 200, 203, 204, 275, 305, 371.2, and 378; CHEM 101.1 and 101.3 (or 113.1 and 113.4); ACCT 101; BALA 200, 3983; BIOL 11, 44; ECON 100

JUSTIFICATION

Background for proposed deletions and additions.

The department has submitted a letter of intent to remove the Food Management Studies specialization from under the Family & Consumer Science umbrella. With this requested change, the specialization in Food Management Studies will be changed to an independent degree as a BA in Food Management Studies. The requested curricular changes support the knowledge base required for the BA in Food Management Studies.

Justification for removal of FNES 106 (Introduction to Family and Consumer Sciences), FNES 147 (Family Relations), FNES 151 (Families as Consumers), FNES 380 (Seminar in Family and Consumer Sciences—1 credit)

FNES 106, 147, and 151 are foundational courses in the Family and Consumer Science curriculum and FNES 380 presents an overview of the family and consumer sciences profession including its scope, trends, and new developments. The content of these courses has no relevance to Food Management Studies. Food Management Studies graduates find careers in the institutional and commercial food service industry or choose to become entrepreneurs in food operations and management.

Justification for addition of BALA 200 (Introduction to Entrepreneurship)

BALA 200 introduces students to problem solving in any business whether new or established. These skills are an essential component of managing food service operations which encounter problems related to suppliers, human resources, operations, vendors, and delivery. (We have approval of the Associate Provost, Alicia Alvero, Interim Director, BALA program, to offer this course as part of the Food Management Studies curriculum.)

BALA 200. Introduction to Entrepreneurship. 3 hr.; 3 cr. Prereq.: ACCT 100, and CSCI 12 or CSCI 48. An introduction to the process of beginning a new enterprise; learning how to take an idea for a new or improved product or service and turn it into a business. Students will create a full-fledged business plan, suitable to be sent to possible investors and lenders as well as serving as a blueprint for operating the enterprise. Emphasis will be placed on creating the plan, and then presenting that plan in an effort to convince investors of the viability of the business. Students will learn the thought processes and skills required to succeed when tackling the problems faced by the entrepreneur. Open only to students enrolled in the BALA minor.

Justification for addition of BALA 3983 (Introduction to Brand Marketing)

BALA 3983 aims to develop fundamental skills in brand or business marketing and effective business communications. These skills are essential for all managers, including managers of

institutional and commercial food service industry. (We have approval of the Associate Provost, Alicia Alvero, Interim Director, BALA program, to offer this course as part of the Food Management Studies curriculum.)

BALA 398. VT: Special Topics in Business. 398.1, 1 hr.; 1 cr., 398.2, 2 hr.; 2 cr., 398.3, 3 hr.; 3 cr. Prereq.: Permission of the program director of BALA. Selected issues in business, topics to be announced in advance. Any combination of BALA 391 and 398 may be taken for a maximum of nine credits. The topics of the 398 courses must differ.

Justification for addition of BIOL 44 (Food and Human Microbiology)

BIOL 44 introduces students to the food and human microbiome. This content knowledge is essential for all careers in the food industry to ensure safe food handling practices to protect against food-borne illnesses.

BIOL 44. Food and Human Microbiology. 2 lec., 1 rec., 3 lab. hr.; 4 cr. Prereq.: BIOL 11, BIOL 40 or BIOL 106. The student will be introduced to general microbiology. Emphasis will be placed on the microbiology of food and human disease and immunology. The laboratory will deal with the characteristics of microorganisms and their role in the preparation of food. May not be used to fulfill biology major or minor requirements.

Justification for addition of FNES 305 (Seminar in Food Management Studies: Career Advancement)

FNES 305 will introduce students to available career paths and the skills and resources essential for career advancement options in Food Management Studies.

FNES 305. Seminar in Food Management Studies: Career Advancement. 1 hr.; 1cr. Prereq.: FNES 275. Exploration of career paths in Food Management Studies. Development of skills, resources and professional ethics, and their application for career advancement in in Food Management Studies.

Justification for increase in 1 credit of required courses for the major

BIOL 44, a 4-credit course, will replace a 3-credit course from the required course work. This change will increase the number of required credits in the major by 1 credit and reduce the number of electives by 1 credit. However, the changed curriculum is stronger and exposes students to critical content areas in Food Management Studies.

5. English

a. New course

English 203W. Writing Science and Technology for the Public. 3 hr.; 3cr. Prereq: ENGL 110.

Engagement and experience in writing for the science and technical fields, as well as grassroots community organizations. Emphasis on audience awareness and data analysis and visualization in preparing effective reports, grant proposals, and digital presentations for specific audiences.

Justification:

English 203W teaches students how to write about science and technology for a public, community-focused, or non-specialized audience. The course is designed to be one of a series of 200-level writing courses for students who are interested in exploring the theory and practice of writing across the academic disciplines, or who may be interested in pursuing a writing-intensive career.

The course pays rigorous and sustained attention to the practice of writing, including electronic multimodal communication and collaborative writing. The course design meets the Fall 2018 guidelines for

creating a “W” course: it assigns 15 pages of evaluated writing and gives students the opportunity to revise their work following peer review and instructor feedback..

2. New course.

English 204W. Writing from the Field. 3 hr.; 3cr. Prereq: ENGL 110. Instruction and practice with the major genres and argumentative structures of writing from observation, interviews and artifacts as in some social sciences and creative writing. Special emphasis on how writing shapes disciplinary knowledge in methodologies for qualitative research and fieldwork, including ethnography.

Justification:

English 204W introduces students to the research and writing practices in the social sciences. The course is designed to be one of a series of 200-level writing courses for students who are interested in exploring the theory and practice of writing across the academic disciplines, or who may be interested in pursuing a writing-intensive career.

The course pays rigorous and sustained attention to the practice of writing, including informal writing and data analysis. The course design meets the Fall 2018 guidelines for creating a “W” course: it assigns 15 pages of evaluated writing and gives students the opportunity to revise their work following peer review and instructor feedback.

3. New course

English 205W. Methods for Writing Research. 4 hr.; 4cr. Prereq: ENGL 110. A course on the basics of qualitative research designs and methods that researchers use to study writing and literacy. Emphasis on developing a research question, conducting an empirical study on writing, and exploring issues involved in research on writing.

Justification:

English 205W allows students to develop a theoretical and methodological understanding of writing practices. It is designed to be the equivalent of the 4-hour, 4-credit courses in literary research methods (English 241, 242, 243, and 244) that are required for English majors. The fourth hour will be used for student-centered learning, including in-class workshops, group activities, and writing exercises.

The course pays rigorous and sustained attention to the ethics and practice of writing. The course design meets the Fall 2018 guidelines for creating a “W” course: it assigns 15 pages of evaluated writing, building in stages to a final project.

9 credits in Italian

Justification:

The MAT and Advanced Certificate in Italian Language Education program is designed for teacher candidates with an undergraduate degree in Italian or equivalent (that is, an Advanced Low in both the Oral Proficiency Interview and Written Proficiency Test; see <http://www.highered.nysed.gov/tcert/actfl.html>). These qualified candidates wish to become certified teachers of Italian (grades 7-12) and gain their master's degree in teaching and develop new programs for secondary Italian language programs. The first 24 credits of the 42 credit MAT program encompass all the required courses that lead to a recommendation for New York State Initial Certification 7-12 and an advanced certificate in Adolescent Education: Italian Language Education. After completing the 24 required credits for the advanced certificate referred to above, an additional 9 credits of graduate level Italian coursework distributed by one course each in Linguistics, Culture, and Literature, 3 credit graduate-level pedagogical content course in world language education (SEYS 743), 3 credits in graduate research (786), and 3 elective credits of graduate level world language curriculum and instruction selected topics courses are required to complete the MAT degree and professional certification.

There is a local, state and national shortage of certified teachers in World Languages. Currently, many uncertified teachers are in service for public, private, and community schools.

These potential candidates frequently ask us for a program with fewer credits, a terminal Master's degree since it is required for professional certification. Many other local colleges offer lower credit MAT programs (for example, Hunter College, Lehman College, CCNY, NYU, Pace University, St John's University). Queens College is losing candidates to these other programs and our Post Baccalaureate enrollments are thereby decreasing. Our existing MSED program serves a different population; teachers already with Initial Certification from at another institution. The proposed program will allow candidates in Italian language education to obtain initial teaching certification along with a streamlined Master's Degree. There are several MATs offered in the SEYS department; world languages is following suit. We already offer the MAT in Critical Languages Education and enrollment has been successful with many teachers entering the profession in these languages faster.

Candidates enrolling in the MAT in Italian Language Education program will be assigned an advisor and will first take pedagogical core courses (12 credits) and pedagogical courses in world language education (12 credits.) The additional 18 credits of graduate level pedagogical study are required to complete the MAT. All have prerequisites among the first 24 credits.
