

Teaching Matters

Special Series on Generative AI

Session 4: Friday, February 16, 2024 @11AM - 12PM

Teaching and Learning about and with AI: Discipline-Specific Ideas ([Click here to register](#))

Led by: Laura Scheiber (KCC), Karan Puri (QCC), Emma Tsui (SPH), Spring Cooper (SPH), Andrea Francis (LaG), Sarah Perez (CCNY), Kevaughn Hunter (CCNY)

- Brief review of the Fall 2023 series sessions
- What discipline-specific pedagogical practices are used to teach about and with AI?
- Can these practices be applied in other disciplines?

Session 5: Friday, March 8, 2024 @11AM - 12PM

Using AI Collaboratively with Students: UDL, Open Pedagogy, and Student Motivation*

Led by: Milena Cueller (LaG), Jessica Murray (Central), Derek Stadler (LaG)

- How do students use AI, and why?
- Students as collaborators and partners – UDL, Open Pedagogy, and other methods to empower students
- Increasing academic integrity through active learning environments and student-instructor collaboration

Session 6: Friday, April 12, 2024 @11AM - 12PM

Equipping Students with Humanistic Skills in the Age of AI: From Classrooms to Careers and Beyond*

Led by: Jose Diaz (City Tech), Allison Lehr Samuels (Baruch), Zach Muhlbauer (GC/Baruch)

- AI's strengths and limitations in application
- Identifying the types of skills employers want in the AI-age
- Leveraging AI's strengths to explore humanistic skills development in the classroom

*Registration for Sessions 5 and 6 will open on February 8 and March 14, respectively.
